Index
Comply with the 4-step CDC Guidelines:

1. Visual Alerts
   - Post visual alerts at the entrances of healthcare facilities, including physician offices, clinics, etc.

2. Cleaning Hands
   - Use of antiseptic hand wash if a sink for hand washing is not available.

3. Wearing Face Masks
   - Wear a mask if coughing. Masks available for visitor use.

4. Using Tissues
   - Cover the nose and mouth with a tissue when coughing or sneezing and properly dispose of tissues after use.

Guard against the unknown with Respiratory Hygiene Solutions from BOWMAN

Cover Your Cough Compliance Kits

Available in multiple configurations, colors and material. Save on shipping and make ordering easy with one part number and one convenient package.

---

**PROTECTION FOR every department**

---

**Hand hygiene is the #1 way to prevent the spread of infection.**
Wall Mount
- Makes isolation easy by permanently mounting a MB-510 Wall Hanger outside of each patient room
- When isolation is needed, just hang the Protection System onto the Wall Hanger and the room is ready
- Shown: PS016-0233

Over the Door
- Convert to an Over the Door Solution by adding a hanger to a door, then adding any Protection System
- Easy to implement—just hang and start using
- Shown: PS015-0212, MB-600, MP-047

Mobile PPE Cart
- Easy visibility & instant access to PPE
- Ergonomic design is easy on your back—no bending and no drawers
- Clear lid allows for immediate access to restock ensuring an efficient workflow
- Shown: CT1030-000, MP-047

Recessed Solutions
- Keeps high traffic areas clear & avoids wall protrusion rules
- Variety of layout options for Glove Dispensing, Flu Prep, and Protection Systems
- Shown: RE101-0012

Patient Rooms
- Design for any space, volume, or budget
- Universal sizing in a variety of colors and configurations
- PPE is highly visible increasing usage and compliance
- Designed with direct input from healthcare professionals
- Works in combination with our Isolation Reference Cards and FREE printable isolation signs to help prevent the spread of HAI’s
- Small, medium, and large dispensing capacities

Rethink your isolation—Find your perfect Protection System solution:

Quickly convert to an Isolation Station by clipping on a Sign Holder.
- MP-047 Sign Holders sold separately; free isolation signs are available at BowmanDispensers.com

patient care
AR EAS
Protect patients, visitors, and staff from microorganisms that spread from contact with contaminated surfaces and common use items, by placing the Infection Prevention stations near nursing stations, waiting areas, office environments and transportation services.

**Patient Rooms & Common Areas**

**Infection Prevention, Glove Box & Bag Dispensers**

Protect patients, visitors, and staff from microorganisms that spread from contact with contaminated surfaces and common use items, by placing the Infection Prevention stations near nursing stations, waiting areas, office environments and transportation services.

**Utility Area Solutions**

Keeping dirty areas clean is a necessity to prevent the spread of infection. Place dispensers like Eyewear Protection and Protection Systems nearby for easy accessibility to required PPE.
Bedpan/Urinal, Protection & Hygiene Dispensers

Wall mounted dispensers keep bedpans and consumables off surfaces to prevent the spread of infection.

CPR Mask & Personal Wipe Dispensers

The CPR Mask Dispenser holds most major manufacturers’ CPR kits. Keep personal wipes easily accessible and off of the floor or counter by mounting a Personal Wipe dispenser where it’s needed, available in 4 sizes.

Glove Box Dispensers

BOWMAN Glove Box Dispensers come in a myriad of sizing, color, and material options to integrate seamlessly into any environment. Whether you need a standard place to store a few boxes of gloves, or have many rooms and varieties of gloves to organize, BOWMAN has your perfect fit.
Signature Series: naturally
SUITED TO YOUR SPACE

Cover Your Cough Compliance Kits
Everything you need in one convenient kit: see pages 4-5 for more options.
